ABOUT NEHRU GROUP OF INSTITUTIONS

Nehru College of Educational and Charitable Trust was established in 1968 with a cluster of Educational Institutions popularly called as "Nehru Group of Institutions" both in TamilNadu and Kerala. In five decades, the group is having 20+ Institutions, offering UG, PG & Research Programs in Medical, Engineering, Aeronautical, Pharmacy, Nursing, Bio Technology, Arts & Sciences, Law, Management & Schools.

ABOUT TECHNOLOGY BASED ENTREPRENEURSHIP DEVELOPMENT PROGRAMME (TEDP)

A Technology Based Entrepreneurship Development Programme primarily focuses on Training and Development need of Science & Technology Entrepreneurs in a specific Technology area. This TEDP programme will be organized for six weeks on Internet of Things. The Internet of things (IoT) is the network of physical objects or "Things" embedded with electronic, software, sensors, and network connectivity which enable these objects to collect and exchange data. The Internet of Things allows objects to be controlled remotely across existing network infrastructure, creating opportunities for more direct integration between the physical world and computer-based systems, and resulting in improved efficiency accuracy and economic benefit.

OBJECTIVE

TEDP is a structured Training programme
• Designed to motivate and develop Entrepreneurs in The Internet of Things
• Exposes to Technical knowledge about the Products and Technologies in IoT
• Enables to develop the skills at the IoT lab and the Technology

An ISO 14001:2004 & 9001: 2015 Certified Institution,
“Nehru Gardens “Thirumalayampalayam, Coimbatore - 641 105.

Dr. B. Vaikundaselvan discussed about business opportunity involves the sale or lease of any product, service, equipment, etc. that will enable the purchaser-licensee to begin a business. The licensor or seller of a business opportunity declares that it will secure or assist the buyer in finding a suitable location or provide the product to the purchaser-licensee. He also discussed about various government institutions to provide non-financial assistances exclusively to the small-scale industries.

He discussed about Market survey is the survey research and analysis of the market for a particular product/service which includes the investigation into customer inclinations. A study of various customer capabilities such as investment attributes and buying potential. Market surveys are tools to directly collect feedback from the target audience to understand their characteristics, expectations, and requirements.

Day 4 (13/03/2021) FN & AN Session – Shri. R. Ramamurthy
Preparing Pre-feasibility Report: Preliminary Project Report (PPR)

Shri. R. Ramamurthy discussed about feasibility study is particularly an analysis that takes into consideration all the relevant factors of a project — including economic, technical, legal, and scheduling considerations. The goal is to ascertain the likelihood of completing the project successfully, within the stipulated timeline. This study entirely focuses on the technical resources that are available to the organization. It helps businesses determine whether the technical resources meet the capacity and whether the team is skilled enough to convert the ideas into actually working systems.

Day 5 (15/03/2021) FN & AN Session - Dr. T. Jayaprakash
Soft Skill Development: Communication

Soft Skill Development: Information Seeking

“Nehru Gardens “Thirumalayampalayam, Coimbatore - 641 105.

Dr. T. Jayaprakash explained about, how to communicate effectively in a workplace setting is vital, because information transmitting between you, your boss, your subordinate, or an associate is often attached to overall company success. With the exchange of information, in a healthy workplace, the delivery is everything. The receiver has the responsibility to ask follow-up questions if they are unclear, and to let the sender know that the message is understood. Offices that support open-door communication between all members are often the most successful at achieving their goals.

He also discussed about Briefing and Planning for the Market Survey, A market research brief is a document a client produces detailing important information about their unique situation and research requirements. This information should include the context of the situation in which the decision to conduct research was made, the initial objectives, and the resulting actions that hope to be taken after the research has concluded.

1. Data Analysis & Cloud Computing
2. Programme Languages used in Raspberry Pi
3. Embedded Systems Design Based on IoT
4. Arduino & its applications
5. PCB Design & Fabrication

Data Analysis & Cloud Computing

Cloud Computing: Cloud Computing is a technique in which a network of remote servers is hosted on the Internet. These servers primarily store the data, manage the data, and process the data. But this is not done by a local server or a personal computer.

In short, data here is gathered on the internet.

Data Analytics: Data analysis is defined as a process where data is inspected, cleaned, transformed, and modeled. The primary aim of data analytics is to discover information that is useful. So that a conclusion is made which further helps in the decision-making process of a company.

Programme Languages used in Raspberry Pi

1. Raspberry Pi with SD card and other peripherals
2. Create user accounts and to write various programs using Python and C languages.
3. Network the Raspberry Pi and managing directories, files.
4. Create and debug programs in an integrated development environment.
5. Design and develop their own projects using various sensors.

Embedded Systems Design Based on IoT

1. To study the different ways of communicating with I/O devices and standard I/O interfaces.
2. To study the programming concepts of embedded concepts.
3. To study design examples relating software implementation, system-on-chip, Testing and debugging.

Arduino & its applications

1. Understand the basic principle of how to communicate with the Arduino.
2. Able to understand the conditions for Arduino & Processing.
3. Design and develop their own projects using various sensors.
4. Able to use microcontrollers with practical applications.
5. To develop programs on Arduino and to create own projects with practical applications in programming, embedded systems, electronics development; custom based embedded systems design, testing and production.

PCB Design & Fabrication

1. Knowledge in step-by-step approach for the development and manufacturing of a printed circuit board.
2. Identifying the correct components to use in the design.
3. Able to find specific issues and skill to solve it in the areas of manufacturing and assembly.
4. The participants can come to know the potential pollution and safety impacts of PCB manufacturing, as well as applicable standards.

Day 36 (24/04/2021) FN & AN Session - Mr. V. Vinod Kumar

Feed back and Evaluation of the Programme

Valedictory

UNLOCK YOUR POTENTIAL : WEBINAR ON 06-07-2020

Opportunities are unlimited. When a door closes, another door opens, this is law of nature. Similarly during Covid'19'19, the use of ICT tools gained popularity. To combat Covid'19 mentally, a webinar on Unlock Your Potential was organized on July 06,2020 by Nehru College of Management. Dr. G.Sudha, Associate Professor and Head, Deputy Dean (Student Welfare), Employability Skills Trainer and Motivational Speaker From Department of Management, School of Commerce and Business, Central University served as the resource person. A lot of interactions and deliberations from the students made the session vibrant and truly the objective of the webinar was fulfilled.

What's new in ANNs in the last 5-10 years?

- **Deeper networks**, more data, and faster training
 - Scalability and use of GPUs ✓
 - Symbolic differentiation ✓
 - Some subtle changes to cost function, architectures, optimization methods ✓

What types of ANNs are most successful and why?

- **Convolutional networks (CNNs)**
- Long term/short term memory networks (LSTM)
- Word2vec and embeddings
