NEHRU COLLEGE OF MANAGEMENT

A Stand alone B-School
ISO 14001:2004 & 9001:2008 Certified, Accredited by NAAC with "B++" Grade
Recognized by UGC under section of 2(f) & 12(B)
Approved by AICTE, New Delhi & Affiliated to Bharathiar University, Coimbatore

Policy Document on Environment and Energy Usage

College Environmental Aims and Objectives

- ❖ The Institution strives to develop itself on a self-sustainable basis in the areas of Power, Water and Cleanliness
- ❖ The entire staff and student fraternity are made aware and encouraged to contribute collectively in developing an eco-friendly sustainable campus and disseminate the concept of eco-friendly culture in and around the campus.
- ❖ Measure and reduce environmental emissions / foot prints

The Environment and Energy Usage Policy of Nehru College of Management is to manage energy in a systematic way so as to minimize its impact on the environment. The Policy implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis.

- To assess our energy usage and measure its impact on the environment
- To install photovoltaic solar panels for the generation of alternate energy
- To install LED bulbs in the complete campus to save energy.
- To reduce air pollution emissions using eco-friendly vehicles including bicycles, public transportation and use of pedestrian friendly roads.
- To develop systematic waste management mechanism.
- To develop rain water harvesting units.
- To plant more trees to make the campus a clean green campus.
- To take additional measures to continuously improve our energy consumption.
- To ensure the availability of necessary resources to achieve our objectives.
- To offer opportunities for staff and students to engage in initiatives to contribute to environmental protection

This policy will be communicated to all the staff and students through internal communication channels and will be made available to all the stakeholders on the institutional website. The Environment and energy Policy, Objectives and targets will be reviewed on a regular basis under the guidance of the Principal of the college

WASTE MANAGEMENT POLICY

Preamble

The educational institutions represent the main components of sustainability promotion in our society. The rise in the global population continues to contribute to the generation of waste especially in urban areas. This makes the issue of waste management to become one of the priorities for government and private entities. Waste is explained as most unwanted materials according to the Environmental Protection Act 1990. Waste includes any scrap material, effluent or unwanted extra substance or article that needs disposal because it is broken, worn out, contaminated or otherwise polluted.

Objectives

Waste minimization is very important because it makes good business sense to protect the environment and boost environmental performance. Waste Minimization techniques focus on preventing waste from ever being created, otherwise known as source reduction and recycling. Nehru College of Management, Coimbatore therefore commits to :

- Use two types of bins separately for biodegradable and non-biodegradable wastes in the college campus as well as in hostels.
- Ensure that all cleaning products used by college staff have a minimal detrimental impact on the environment.
- Keep a stack of paper that has been printed on one side and use it for day to day rough paper work.
- Use more readout materials in soft form. Reduce the paper print outs and use more of electronic mail (E-Mail) for official communication.
- Minimize the use of fertilizers and pesticide in college grounds, opting for the use of composite produced on the site wherever possible.
- Reduce the practice of burning plastic and other materials that emit harmful gas on burning which is to be prevented in the campus.
- Ensure that e-waste is disposed or recycled in a regular basis.

Waste Management Plan

Solid Waste management

- ❖ Solid waste is collected daily in dustbins located around the campus.
- ❖ The solid wastes like paper wastes, plastic wastes, food wastes etc., that get generated day to day are collected and segregated into biodegradable and non-biodegradable wastes.
- ❖ The different waste groups have different colours for the containers/dustbins for the identification according to the hazards and are applied throughout the complete disposal chain i.e. Segregation, Collection, Storage, Transport and Disposal.
- ❖ The recyclable garbage waste and non-recyclable wastes are dumped in specified coloured containers / dustbins.
- ❖ A separate agency will be arranged by the management for waste collection and its proper disposal.
- ❖ Disposal of sanitary napkins, batteries etc. Are done without causing any damage in the campus.

E-Waste Management

- ❖ E-Wastes like defunct computers, printers, discharged batteries, UPS, Condemned electronic units, circuit components etc. are collected.
- ❖ Agreements / MoU's with approved agencies to handle the e-wastes are arranged by the management.

Water Recycling Management

- ❖ The waste water from various sources are collected and treated and further used for gardening purposes.
- ❖ Separate Posters on emphasizing the usage of water and its optimal use are displayed near water usage areas like Wash basins, Lavatories etc..

Water Conservation Policy

Preamble

Water is one of the fundamental scarce natural resource to life, livelihood, food security and sustainable development. India stands second in world population and has only 4% of renewable water resources and 2.4% of world's land area. There are further limits on utilisable quantities of water owing to uneven distribution over time and space. In addition, there are challenges of frequent floods and droughts in one or other part of the country.

With a growing population and rising needs of a fast developing nation as well as the given indications of the impact of climate change, availability of utilisable water will be under further strain in future with the possibility of deepening water conflicts among different user groups. Low consciousness about the scarcity of water and its life sustaining and economic value results in its mismanagement, wastage and inefficient use as also pollution and reduction of flows below minimum ecological needs. In addition, there are inequities in distribution and lack of a unified perspective in planning, management and use of water resources. The objective of the National water Policy is to take cognizance of the existing situation to propose a framework for creation of a system of laws and institutions and for a plan of action with a unified national perspective.

Objectives

Minimize consumption of water. In this context, Nehru College of Management, Coimbatore therefore has adopted the following policies.

- Repair sources of water leakage such as dripping taps and showers as quickly as possible.
- Install appliances which reduce water consumption
- Encourage use of recycled rain water and grey water to reduce main water consumption.
- Reuses the water coming out of RO water purification systems for washing clothes and garments in hostels.
- Use of an efficient and hygienic water storage mechanism to minimize the loss of water during storage.

Rain Water Harvesting

Rain water harvesting is an important environment friendly approach. It is a green practice having double benefit of keeping the groundwater level undisturbed and charging the aquifer. The college has constructed rain water harvesting (RWH) structures within its campus for storing and reusing the rain water. This green practice was encouraged in the form of Community Development Program.

The college organises programmes like guest lectures and seminars to sensitize students towards conservation of water. The soil in the college campus has a good infiltration rate. Rain water and run-off water are stored in a planned way which can save the earth from soil erosion and flood and recharge the aquifers to increase the groundwater level. Collecting and harvesting rainwater and run-off water would reserve the water for future generation. Rainwater harvesting is eco-friendly and economical. Our Institution is able to meet its water requirements through rain water harvesting and recycling.

Waste Water

Waste water generated by the college should be calculated and treatment plants should be installed as of requirements. The waste water after recycling could be used for cleansing of utensils and gardening activities.

NEHRU COLLEGE OF MANAGEMENT

A Stand alone B-School
ISO 14001:2004 & 9001:2008 Certified, Accredited by NAAC with "B++" Grade
Recognized by UGC under section of 2(f) & 12(B)
Approved by AICTE, New Delhi & Affiliated to Bharathiar University, Coimbatore

Policy Document on Green Campus

The Green Campus, Energy and Environment Policy Context

Nehru College of Management and nature is a long and enduring relationship. This is aware by all stakeholders.

Scope of the Policy

The Green Campus, Energy and Environment Policies will develop exciting new co-curricular and extracurricular practices that encourage students to take the lead in creating positive change. These initiatives call for a thorough review of all infrastructural, administrative functions from the standpoints of energy efficiency, sustainability and the environment.

The focus areas of this policy are:

- ❖ Clean Campus Initiatives
- ❖ Landscaping Initiatives
- ❖ Clean Air Initiatives
 - Smoking Free Campus
- ❖ Infrastructure
 - Solar Power Plant
 - Installation of Energy Efficiency Equipment
 - Water Conservation through Rainwater Harvesting System
- ❖ Waste Management processes
 - Solid Waste Management
 - Liquid Waste Management
 - E-Waste Management
- ❖ Awareness Initiatives
 - Environment-centric Student Societies and Department Activities
- ❖ Green Audit
- ❖ Energy Audit
- ❖ Plastic-Free Campus

NEHRU COLLEGE OF MANAGEMENT

A Stand alone B-School
ISO 14001:2004 & 9001:2008 Certified, Accredited by NAAC with "B++" Grade
Recognized by UGC under section of 2(f) & 12(B)
Approved by AICTE, New Delhi & Affiliated to Bharathiar University, Coimbatore

Objectives of the Policy

- ❖ To ensure judicious use of environmental resources to meet the needs and aspirations of the present and future generations.
- ❖ To protect and conserve ecological systems and resources within the campus by working with all stakeholders and local community
- ❖ To integrate environmental concerns into policies, plans and programmes for social development and outreach activities.
- ❖ To continuously improve the efficient use of all resources, including energy and water, and to reduce consumption and the amount of waste produced, recovering and recycling waste where possible.
- ❖ To make the campus plastic free.
- ❖ To conduct environmental and energy audits from time to time. □ To minimize the use of paper in administration through having policy for E-governance.

Policy

Nehru College of Management has pledged to actively coordinate cleanliness activities in the college and beyond the campus. The broad vision is as follows:

1. Generating mass awareness on cleanliness and hygiene amongst students and staff members by holding regular cleanliness drives.
2. Staff Members will be encouraged to participate in the cleanliness drive in the college campus.
3. Events such as Rallys, poster and slogan competitions, essay writing, spoken word poetry, speeches, skits related to clean green initiatives to be organised.
4. Remove all kinds of waste material like broken furniture, unusable equipment etc.
5. Administer of the pledge by students and staff members to maintain cleanliness of the college campus and its surrounding areas on an annual basis. 6. Commit to manage waste and maintain clean campus especially during college events.

Landscaping Initiatives

To add beauty to the campus and its surroundings, the environmental club along with students plants saplings at regular intervals during the various programmes organized throughout the year.

Recognized by UGC under section of 2(f) & 12(B)
Approved by AICTE, New Delhi & Affiliated to Bharathiar University, Coimbatore

Clean Air Initiatives

The college prohibits smoking and the use of other tobacco products in promoting a tobacco free environment in and around the campus. The Discipline committee of the college ensures enforcement of the anti-smoking policy.

Infrastructural Initiatives

The following initiatives are taken

- Renewable Sources of Energy (To Reduce electricity Consumption)
- Energy Saving and Energy Efficient Equipment (Use of LEDS, Energy Efficient Appliances)
- Water Conservation through Rainwater Harvesting System (Practicing rainwater harvesting)

Waste Management Processes

Solid Waste management

Nehru College of Management strives to have a minimal impact on the environment and is dedicated to reduce and manage the waste generated by the college campus. The following specific procedures are to be undertaken :

- ✓ Follow the 3Rs of environment friendliness (Reduce, Reuse and Recycle).
- ✓ Collect paper waste produced on campus and collaborate with scrap dealers for recycling.
- ✓ Prefer Green environment by using ICT.
- ✓ Organizing workshops for students on solid waste management.

Liquid Waste Management

- ✓ Maintain leak proof water fixtures.
- ✓ Continuously Monitor and take action with a dedicated person to take immediate steps to stop any water leakage through taps, pipes, tanks, toilet flush etc.

Corporate Office :

451 - D, Nehru College Campus,
Kuniamuthur, Coimbatore - 641 008.
Phone : 0422 - 2206148

NEHRU COLLEGE OF MANAGEMENT

A Stand alone B-School
ISO 14001:2004 & 9001:2008 Certified, Accredited by NAAC with "B++" Grade
Recognized by UGC under section of 2(f) & 12(B)
Approved by AICTE, New Delhi & Affiliated to Bharathiar University, Coimbatore

E-Waste Management

Nehru College of Management plans and strives towards handling e-waste not to impact the environment.

- ✓ More provisions for the disposal of the institutional e-waste.
- ✓ Collaboration with e-waste recycling companies to get electronic waste recycled.
- ✓ Awareness amongst students about reduction of e-waste and environment friendly disposal practices for e-waste.

Awareness Initiatives

Nehru College of Management supports and encourages awareness campaigns, seminars, workshops, conferences and other interactive sessions to facilitate effective implementation of the Green Campus, Energy and Environment policies. The awareness initiatives are taken care by the environment club and other supporting clubs in moulding the students into active agents of environment protection and conservation.

Green Audit and Energy Audit

The above audits to be conducted as and when required to further reduce and enhance energy efficiency in the campus. An inspection often reveals several different flaws which cause a loss of significant amounts of energy which the college will not be able to detect. These flaws often have easy and affordable solutions and provide significant savings

Plastic Free Campus

The College plans to organize various events to create awareness and prevent use of plastics inside the campus. It also encourages to use jute bags. The college ensures to its maximum to maintain a plastic free campus.

Circular

All the Staff and Students of Nehru College of Management are strictly advised to adhere to the rules to be followed as part of energy and water conservation inside the campus.

- ❖ Switch off the lights, fan, A/C, Systems and other electrical appliances before you leave the rooms.
- ❖ Close the water taps properly after use to save water.
- ❖ Bring to notice as and now when there is leakage in water taps to fix it.
- ❖ Participate in programmes related to the above to save both water and electricity.
